Budzar Industries**

**38241 Willoughby Parkway
Willoughby, OH 44094
PH: 440-530-1000
FX: 440-918-0707**

Shini USA, the plastics division of Budzar Industries, Inc., combines 50 years of in the plastics auxiliary machinery market.

As a global leader in the manufacture of Dryers, Hopper Loaders, Temperature Controllers, Hot Oil Units, Portable Air-Cooled Chillers, Portable Water-Cooled Chillers, Central Chillers, Grinders and Conveyers, Shini USA offers the latest technology.

Our goal of combining the best in worldwide engineering, design and support insures plastic processors the best quality at a maximum value when buying our products.

Shini is one of the worlds leading manufactures that specialize in producing a full range of auxiliary equipment for the plastics industry for over 37 years. At Shini USA, we incorporate local engineering, design and service support to provide maximum value and quality.

The SAL series Hopper Loaders offer easy to use controls. The detachable hand held control allows the operator the convenience of remote operation. The hopper itself is constructed of brushed stainless steel and has a hinged cover that is sound proofed to lower motor noise.

The industrial duty components and rugged design will stand up to even the harshest operating conditions.

Final assembly and thorough testing of each machine is performed at Shini USA's facility in Willoughby, Ohio. We guarantee that each and every unit will start up with ease and perform with the excellence expected of Shini USA, we stand behind our products 100%.

The listed features are provided as "standard equipment" and exceed other available equipment on the market.

Self Contained Hopper Loaders

Motors:

- ◆ Carbon brush type
- ◆ Carbon brush fault indicator
- ◆ Sound proof enclosure to reduce noise
- ◆ Run time indicator

Hoppers:

- ◆ Stainless steel interior
- ◆ Quick release hinged lid
- ◆ View port on discharge
- ◆ No internal protrusions
- ◆ Reverse stopper flap
- ◆ Automatic filter cleaning

Controllers:

- ◆ Microprocessor control
- ◆ Easy pushbutton control
- ◆ Easy to read display, dual ration control
- ◆ Removable control panel for hand held remote operation

Electrical:

- ◆ 110 Voltage
- ◆ Material shortage alarm
- ◆ Motor over load protection
- ◆ Indicating lights
- ◆ Adjustable direction of hopper and hopper base
- ◆ Cloth filter with auto dust cleaner

Included Items:

- ◆ One (1) 10' hose
- ◆ Two (2) adjustable clamps
- ◆ One (1) 3' stainless steel wand

Self Contained Hopper Loader - SAL Series			
Model	SAL-1.5U	SAL-3U	SAL-3U-E
Motor Type	Carbon Brush	Carbon Brush	Carbon Brush
Motor Power (hp)	1.85	1.85	1.85
Conveying Capacity (lbs/hr)	220	330	330
Hopper Capacity (lbs)	2	3	3
Level Switch	Magnetic Reed	Magnetic Reed	Glass tube hopper with Photo Sensor
Conveying Hose Internal Dia. (inches)	1.5"	1.5"	1.5"
Input Voltage	110 /1	110 /1	110 /1
Height (inches)	21	22	28
Width (inches)	11	12	12
Depth (inches)	13	15	15
Weight (lbs)	22	25	27

Self Contained Hopper Loader - SAL Series		
Model	SAL-6U	SAL-6U-E
Motor Type	Carbon Brush	Carbon Brush
Motor Power (hp)	1.85	1.85
Conveying Capacity (lbs/hr)	440	440
Hopper Capacity (lbs)	7	7
Level Switch	Magnetic Reed	Glass tube hopper with Photo Sensor
Conveying Hose Internal Dia. (inches)	1.5"	1.5"
Input Voltage	110 /1	110 /1
Height (inches)	25	32
Width (inches)	14	14
Depth (inches)	16	16
Weight (lbs)	27	30

Self Contained Hopper Loader - SAL Series		
Model	SAL-12U	SAL-12U-E
Motor Type	Carbon Brush	Carbon Brush
Motor Power (hp)	1.85	1.85
Conveying Capacity (lbs/hr)	660	660
Hopper Capacity (lbs)	15	15
Level Switch	Magnetic Reed	Glass tube hopper with Photo Sensor
Conveying Hose Internal Dia. (inches)	1.5	1.5
Input Voltage	110 /1	110 /1
Height (inches)	29	36
Width (inches)	14	14
Depth (inches)	16	16
Weight (lbs)	30	40
